## Site Engineers

Our experienced civil/site engineers work closely with landscape architects & environmental engineers. Our engineers tried to fulfill the needs of owners.

## General Labor

We have skilled or semi skilled labor for construction and manufacturing companies. We also provide Welder, Brick Layer, Electrician & Concrete Finisher.

## A/C installation

We offer high quality installation of residential and commercial air conditioning with the use of professional equipment and fine materials, at a lower cost.

## Maintenance and Repair

We provide onshore and offshore technical support to offshore clients' first line core crew to enable them to undertake routine maintenance with confidence.

## Pre-season preparation

Air conditioning systems are regulated appliances, requiring expert maintenance to properly function at the best rate of energy consumption.

## Annual Inspections

An annual inspection allows a technician to identify dirty coils and burned out contactors before they cause long term damage to your system.

## Heating services

During the lifetime operation of the heating system there may be situations that require reducing or increasing the number of sections, or flush the radiator.

## Windows units

Window air conditioner is installed in an aperture of window hole in such a way that its outer part is in contact with the atmosphere, and the inner part inside the room.
